

## Call for Papers

### WSEAS Transactions on Fluid Mechanics

#### Fluid Mechanics Trends in Engineering

**Editor:**

Prof. Muhammad Raheel Mohyuddin,  
Caledonian College of Engineering,  
Sultanate of Oman  
Email: mraheel.mohyuddin@caledonian.edu.om

**Aim:**

The primary goal of the conference is to promote research and developmental activities in Fluid Dynamics, Fluid Engineering, Science and Technology. Secondary purpose is to promote scientific information & Knowledge interchange between researchers, developers, engineers, students, and practitioners working in different institutions around the globe. The conference will give the opportunity to researchers, learners and students to utilize it an ideal platform for people to share views and experiences in the areas of Mathematical Physics, CFD, Fluid Engineering, Science and Technology.

**Topics:**

Fluid Mechanics  
Fluid Dynamics  
CFD  
Fluid Engineering  
Mathematical Physics  
Modelling in Fluid Engineering  
Differential Equations aspects in Fluids  
Viscous and Non-viscous fluids  
Newtonian Fluid mechanics  
Computer trends in Fluid Mechanics

**Submission Deadline:**

December 31, 2016

**Submission Rules:**

Manuscripts should be prepared according to the formatting instructions available at WSEAS Transactions on Fluid Mechanics.

Manuscripts submitted to the Special Issue on Fluid Mechanics Trends in Engineering are to be submitted following the standard submission process. All submitted manuscripts will be reviewed using the standard procedure that is followed for regular submissions
