WSEAS TRANSACTIONS on SIGNAL PROCESSING

Special Issue on Biometrics, Computer Vision and Information Security

Editor:

Professor G. R. Sinha
Shri Shankaracharya Technical Campus of Chhattigarh,
Swami Vivekanand Technical University
Bhilai, India
E-mail: drgrsinha@ieee.org

Aim:

Information and Data Science is playing a pivotal role in evolution of modern computing and has added a data-driven approach in development and automation of Systems, Business Processes, Internet of things and Cloud Computing. These areas involves machine learning, big data management, analytics and visualization. The special issue will also cover all areas of quantitative analysis including theory, methods and applications in different domains. Research papers based on interdisciplinary and cross-domain applications will be highly encouraged.

Topics:

Biometrics-Simple and multimodal biometrics, template protection, retrieval time, image de-noising, robustness; Soft biometrics; Digital image based information security; Implications and Challenges in computer vision based applications; Parallel architecture paradigm.

Submission Deadline: December 31, 2016

Submission Rules:

Manuscripts should be prepared according to the formatting instructions. Manuscripts submitted to the Special Issue on Biometrics, Computer Vision and Information Security are to be submitted following the standard submission process. All submitted manuscripts will be reviewed using the standard procedure that is followed for regular submissions.
