I declare, I confirm, I certify and I sign that I received substantial, important, line by line peer review with several and substantial comments, important remarks and hints from, at least, 3 Reviewers and the Assistant Editor for my paper:

All the references included in the reference list should be cited in the text. The introduction part should be also rewritten in a more compact and successive way including more references. The authors should explain better the problem and analyze studies of other researchers. More details are needed to clarify the Design of Sliding Mode Variable Structure Controller of section 3. The results of the figures 6-8 should be presented and explained in detail. The presentation of the section 4 'Simulation Analysis' is poor. The authors must write it better and must extend it.

with Authors: Lihua Wang, Tianze Miao, Xiaona Liu, Siyuan Liu.

I would like to thank all the reviewers for their thoughtful comments and efforts towards improving our manuscript. We revised the manuscript with special attention to the comments that we received from, at least, 3 reviewers that were experts, specialists in the area of my paper.

I declare, confirm, certify and sign that WSEAS has checked my paper for possible plagiarism by Turnitin and my paper was found without plagiarism or self-plagiarism by Turnitin.

I also declare, confirm, certify and sign that also that no Associate-Editor, no Editor-in-Chief, no member of the WSEAS Secretariat forced me in this Journal to add references (citations) to any previous publications of the journal.

I also declare, confirm, certify and sign that I have made all the changes, modifications, additions, studies, corrections asked by the reviewers and I have fully complied with their instructions. I also understand that before the publication the 3 (or more than 3) reviewers will check my paper to see if all the changes, modifications, additions, studies, corrections etc have been done and I authorize the WSEAS to publish my paper or to reject my paper even in the 2nd round of peer review or to continue with an additional round of peer review.

Please, write additional comments below (take ideas from:

My paper “Sliding Mode Control of Bi-directional DC/DC Converter in DC Microgrid Based on Exact Feedback Linearization”, I am very satisfied with the review process of WSEAS journal. The reviewers put forward many key questions to improve the quality of my paper. The editor also patiently answered my questions. I am very grateful to the three reviewers and the editor for their help.
