I am glad that I published one of my good papers in WSEAS transactions. The title of my paper is "On the Diophantine Equation $8^x+n^y=z^2$ " and has been accepted in WSEAS Transactions on Mathematics. I made the significant improvements that the reviewers proposed on the paper in order to submit the final version for the WSEAS Transactions on Mathematic. I am glad that the

paper will be published in this journal soon and I thank the Editor-inChief,
Associate Editor and the team of 3 reviewers"
