Table of Contents

Plenary Lecture 1: Implementation of Total Quality Management in Educational Institutions in India <i>U. C. Jha</i>	9
Plenary Lecture 2: Game-Based Learning: Myth or Reality? <i>Carlos Vaz de Carvalho</i>	10
The Influences of Prompts on Paper-Based and Mobile Display-Based Learning of Learning Material Knowledge (Scientific Study) in Senior High School and University Students <i>Haruhisa Yamaguchi, Yumi Yamaguchi</i>	11
Virtual Sign Supporting Inclusive Learning and Equity <i>Paula Escudeiro, Nuno Escudeiro, Rosa Reis, Maciel Barbosa, José Bidarra, Ana Bela Baltasar, Pedro Rodrigues, Jorge Lopes, Marcelo Norberto</i>	17
Innovations in the Evaluation of Professional Preparation <i>Zdeněk Malánik</i>	24
Virtual Sign Game - Learning Sign Language <i>Paula Escudeiro, Nuno Escudeiro, Rosa Reis, Maciel Barbosa, José Bidarra, Ana Bela Baltasar, Pedro Rodrigues, Jorge Lopes, Marcelo Norberto</i>	29
Nonlinearity as a Design Characteristic or an Educational Method in Critique Sessions <i>B. Hassanpour, A. I. Che-Ani, N. M. Tawil, S. Johar</i>	34
E-learning Systems – Support to Quality Teaching <i>Vladimir Simovic, Goran Kozina, Zdenka Zupan Milkovic</i>	39
Gesture Control in Education for Young Student <i>Yang-Ting Chen, Miao-Kuei Ho, Hung-Jen Yang</i>	44
An Investigation of the Cognitive and Social Processing of Pre-Writing Activities: A Qualitative Case Study of Three English as Foreign Language (EFL) Learners in a Facebook Group <i>Norizan Abdul Razak, Murad Abdu Saeed</i>	55
Critical Infrastructure Protection and Resilience as an Actual Challenge of Security Education <i>Hromada Martin, Lukas Ludek</i>	62
Fortifying the Master’s by Research Programme: Alignment of Assessed Activities and Learning Outcomes <i>Chee-Ming Chan, Ahmad Shakri Mat Seman, Alina Shamsuddin</i>	70
Virtual Environments for Problem Based Learning in Engineering: A Survey <i>Fábio Nogueira, Carlos Vaz De Carvalho</i>	77
The Realization of Authentic Learning Based in Malaysian Polytechnics <i>Mohd Norulhisham Bin Abd Rashid, Firdaus Bin Mohamad Hamzah</i>	86

The Students Entrance Exam - Model Modification	92
<i>Ivana Miloloza, Vladimir Simovic, Marin Milkovic</i>	
Identifying Item Difficulties of Pre-Test Using Rasch Measurement Model: A Case Study	98
<i>Norain Farhana Ahmad Fuaad, Zulkifli Mohd Nopiah, Norgainy Mohd Tawil, Haliza Othman, Izamarlina Asshaari</i>	
A Study of Developing Cloud Computing Curriculum	102
<i>Ming-Cheng Wang, Chili Chang-Chien, Yin-Hui Hung, Lung-Hsing Kuo, Hung-Jen Yang</i>	
A Problem Based Sustainability Education Approach in Integrated Design Project Course	109
<i>S. N. E. S. Mohd Shokri, W. H. W. Badaruzzaman</i>	
Work in Progress: Remaking of Introduction to Engineering Course	116
<i>M. Fikret Ercan, Danny Quek</i>	
The Readiness of Low Proficiency Students for the Application of Computer Assisted Reading Program	121
<i>Norizan Abdul Razak, Sidra Naim</i>	
Social-Network for Supporting On-Line Learning	128
<i>Ming-Cheng Wang, Chili Chang-Chien, Yin-Hui Hung, Lung-Hsing Kuo, Hung-Jen Yang</i>	
Learning Contract in Architecture Design Studios	136

Plenary Lecture 1

Implementation of Total Quality Management in Educational Institutions in India

Professor U. C. Jha

College of Engineering & Technology
India

E-mail: prof.uc.jha@gmail.com

Abstract: Total Quality Management (TQM) is inevitably common factor that will shape the strategies of educational institutions in their attempt to satisfy various stakeholders including students, parents, industry and society as a whole. The paper is a theoretical attempt to explain the application of TQM in educational institutions. It deals with issues pertaining quality in education and moves on to identify variables influencing quality of educational institutions. Application of TQM concepts is one of such measures, which will go a long way in revolutionizing the educational system. The paper attempts to theoretically conceptualize TQM in educational institutions.

Brief Biography of the Speaker: Currently Prof. Jha is working as Professor of Mechanical engg. department & Vice Principal in a reputed engineering college in India. Prof. Jha is a former Director of CII Technology Centre and In charge – Entrepreneurship Development Cell. He has also served as the “head of the Department”, Dean (Academics) and “Acting Director” of an engineering college. In his honour & a token of international recognition , he is in the Editorial Board of Ten International Journals in which Eight are published from abroad. He has also visited Yale (Yale University,USA – An Ivy League University) – Great Lakes Research centre, University of Colombo (Sri Lanka), Tribhuvan University Kathmandu (Nepal) & Kasetsart University (Thailand) for Chairing the session or presentation of research paper. His outstanding achievements have earned him a position in “Who’s Who in the World” USA, 26th Anniversary Edition 2008, 28th Edition 2010, 29th Edition 2011 & pearl edition 2012, which is a prestigious international publication of the most noteworthy individuals in their respective field and careers around the globe. He has published & presented over 100 (Hundred) papers at International / National conferences & journals. He is in the Editorial Advisory Board of Journal of Management Development (Emerald, UK), Journal of Technology Management & Innovation (Chile, South America), Contemporary Management Research (Taiwan), International Journal of Applied Engineering Research & in Editorial Review Board of Journal of Information, Knowledge & Management (USA), International Journal of Modern Engineering (USA).

He has also reviewed paper for many International Conferences : notable among them are Yale (Yale University,USA) -Great Lakes Research Conference 2009, Global Conference on Flexible System Management, Keio University Japan (GLOGIFT’10),International association of Business & Economics Conference (IABE – 2010) Las Vegas (USA), 2010 International Conference on Scientific & Social Science Research, Kuala Lumpur, Malaysia, (CIMMACS’11),Bina Nusantara University, Jakarta, Indonesia, International (DEEE’2012) Conference, Paris, France.He is the Official Reviewer for ooi Consortium for Teaching, Research, Learning and Development (ooiCTRLD)Louisiana, USA & World Scientific and Engineering academy & Society, USA. His area of interest is Mechanical Engg., TQM & ISO 9001, Supply Chain Management, Six - Sigma, International Competitiveness, Quality management, Knowledge Management, Operation Management & Operation Research , Industrial engg., Entrepreneurship development etc.

Plenary Lecture 2

Game-Based Learning: Myth or Reality?

Dr. Carlos Vaz de Carvalho
Director of GILT
(Graphics, Interaction, Learning Technologies)
Instituto Superior de Engenharia Porto
Portugal
E-mail: cmc@isep.ipp.pt

Abstract: Games are organized and ruled environments where players must overcome challenges and face opponents (real or game characters) to achieve victory. Failure to follow these rules implies a punishment or penalty. Games offer an incredibly immersive and engaging environment where users learn by doing and learn from their own

“

errors in a controlled environment that is able to improve teamwork, social skills, leadership and collaboration. Game-based learning focuses on the design, development, use and application of games for educational purposes rather than entertainment. The most striking effect in the use of these games is the increased motivation and engagement. Their enjoyable context and interactivity enhance retention, cooperation and competition skills, strengthen social competences and the fun factor can continuously feed motivation into the learning process.

However, in spite of the existing evidence of success, there is still a limited use of games for educational purposes. This has mainly to do with social concerns and stereotypes about the relation of games and serious purposes. Other issues relate to physical and cost barriers, hardware and license cost, access (for online games), maintenance and support.

This keynote speech will address both sides the use of games for learning and will assess realistically the advantages and disadvantages associated with that methodology.

Brief Biography of the Speaker: Carlos Vaz de Carvalho has a Ph.D. in Information Systems and Technology by the School of Engineering of the University of Minho. He has been a Professor for the last 21 years in the Computer Engineering Department of the School of Engineering of the Porto Polytechnic. He was researcher at INESC (Group on Computer Graphics), a private R&D organization, between 1988 and 1996. From that moment he developed his scientific career, in the field of e-Learning, at ISEP where he is currently the Director of the R&D Group GILT (Graphics, Interaction and Learning Technologies). He tutored/is tutoring seven PhD theses and 30 Master theses, has authored over 100 publications and communications, including nine books (as author and editor) and participated in more than 20 national and European projects, coordinating seven of them.
