**Preface**

This year the 4th International Conference on Economics, Political and Law Science (EPLS '15) was held in Rome, Italy, November 7-9, 2015. The conference provided a platform to discuss organisational behaviour, business management, financial accounting, business ethics, production and logistics, electronic commerce, business law, labor economics, crisis management, property law, legislature etc. with participants from all over the world, both from academia and from industry.

Its success is reflected in the papers received, with participants coming from several countries, allowing a real multinational multicultural exchange of experiences and ideas.

The accepted papers of this conference are published in this Book that will be sent to international indexes. They will be also available in the E-Library of the WSEAS. Extended versions of the best papers will be promoted to many Journals for further evaluation.

Conferences such as this can only succeed as a team effort, so the Editors want to thank the International Scientific Committee and the Reviewers for their excellent work in reviewing the papers as well as their invaluable input and advice.

The Editors

## Table of Contents
